

STUDY IN MALAYSIA

About Country

Malaysia is a country with a lot of different cultures, ethnicities, and religions. Area-wise, Malaysia is the 66th largest country. It is located in South-East Asia. It has land borders with Thailand in West Malaysia, and Indonesia and Brunei in East Malaysia. Malaysia is a country where one can find different cultures and ethnic groups living together.

Malaysia is the only country which is located in a zone that is not affected by drastic weather changes or big natural calamities. It is easily accessible to different countries via water or air. Due to its central position, it is a business hub and head quarters of many giant MNC's.

There are 3 federal territories of Malaysia namely Kuala Lumpur, Putrajaya and Labuan. The country has 7 major international air-ports.

Transport system in Malaysia is the longest highway of the country, the North-South Expressway, extends over 800 kilometres between the Thai border and Singapore. Light Rail Transit and Monorail are the cheapest and most affordable used transportation.

Education System

Malaysian education system is more than 30 years old. From last few years it has developed tremendously by the introduction of some of the excellent Universities and foreign universities off shore campuses. Malaysian Education system is divided into 4 categories, following are in details:

Internationally Affiliated Degrees:

Students who cannot afford to get degree from Australia, UK, USA and New-Zealand, can get it easily in Malaysia. In Malaysia there are many colleges and Universities which give affiliated degrees from Universities in these countries at very low fee structure.

"2+1" Twinning Degree Programs:

Student has an option to study both in Malaysia and other countries (preferred location) at same tuition fees that of Malaysia. Student can study 3 years in Malaysia and 1 year in UK, USA, Australia, Germany, France, Canada and New Zealand. With this option they have the exposure of two countries at the same time.

Foreign Bachelor's degree in Malaysia:

Students have an opportunity to get the entire foreign university degree programme in Malaysia. These are provided by Private Institutions. The qualification from these programmes will be awarded by the partner universities. Upon graduation, students can easily pursue their master's degree at the partner university overseas.

Foreign University off shore Campuses in Malaysia:

At present there are many foreign off shore campuses at Malaysia some of them are - Monash University (Australia) Nottingham University (UK) Curtin University of Technology (Australia) Swinburne University of Technology (Australia) By enrolling at any of these campuses located in Malaysia, you will pay lower tuition fees and have an option of completing one semester at these Universities in their home countries. The degrees offered at these campuses are identical to those offered at the main campus.
